Instruction Sheet for:
Item #’s 2226, 2716, & 2766
16” Par Baked Pizza Shell

DOUGH PREPARATION
1. Place the Par Baked Shell in an oiled pan or pizza screen (pan spray works great).

TOPPINGS
1. Sauce - Spread one (8-ounce) ladle of sauce, starting at the center and work towards the edges, stopping about a half inch from the edges.
2. Cheese - Starting at the outside edge and working in, spread 10 ounces (2 cups) of shredded mozzarella evenly over the pizza.
3. Pepperoni (optional) - Evenly place the pieces in a pattern of 4 per slice.
   • Each pizza should use 32 pieces.

BAKING
1. Baking - Your DeLorio’s technician will help to determine the time and temperature that produces the best results. As a guide, bake the pizza in a pre-heated oven at 450°F for about five and a half minutes or until the bottom of the crust is golden-brown.

CUTTING & SERVING
1. After removing pizza from oven, allow it to set for 2-3 minutes before cutting or toppings will be apt to slide off.
   ✓ If using a pan with a lip, gently slide the pizza onto a flat cutting or serving tray.
   ✓ If a whole pizza is being purchased, slide the pizza into the pizza box before cutting.
2. Cut the pizza into 8 equal slices as shown. Place in pizza warmer or display.
